PERSONAL HOBBIES

- Trekking
  - I have been traveling to a lot of places. Walking along the jungle soft or hard is a part of the trekking and it is so much fun.
- Watching Movies
  - I love watching all kinds of movies in my relaxed time. Among them , I love watching Action/Thriller/Comedy types of movies, Benedict Cumberbatch and Tom Hank are my favorite actors
- Bicycling and Motorcycling
  - I am very interested in Big Bikes. I sometimes take a ride with my 299cc Yamaha YRF-R3.

- Gymnastic and Meditation
  - I think it is important for physical fitness as well as mental fitness to be work-life balance. So, I try to take time to go to the gym once a day and meditation in order to clear my mindsets.

About me (Pitch)

As a software engineer with 4 years of experience, I have a passion for developing innovative solutions to complex problems. My expertise in Odoo, Python, Full stack Tech has allowed me to deliver high-quality software products that meet business objectives.

I am well-versed in python and have worked on projects of varying scope and complexity. Additionally, I am a strong communicator and team player, thriving in collaborative environments and leading cross-functional teams when needed.

Continued learning and professional development is important to me, and I stay up-to-date with the latest industry trends through attending conferences, participating in online forums, and taking courses.

As a software engineer, I am driven by a desire to create a meaningful impact on people's lives through developing new features and solving challenging technical problems. I am excited about the opportunity to contribute my skills and experience to a company that values innovation, collaboration, and continuous improvement.
